C. Plan Re-submittal:
 C1 A re-submittal fee of \$125 shall be assessed for review of fire alarm system plans and fire suppression system plans that have been submitted following denial of plan approval, if the submission is within 8 months of the original denial.
 C2 A re-submittal fee of \$50 shall be assessed for revisions to previously approved plans and plans that have been reviewed but not denied. \$ _____

D. Alteration/Modifications to Existing Systems
 D1 The fee for review of submittals for an alteration or modification to an existing automatic fire sprinkler system of up to 20 sprinklers shall be \$50. For these alterations, provide the description of the type and scope of work along with cut-sheets for any new sprinklers. \$ _____
 D2 The fee for review of submittals for alteration or modification to other existing fire protection systems of up to 3 devices shall be \$50.
 D3 The fee for review of submittals for existing projects that are larger than specified in D1 and D2 shall be the same as specified for a new system.

E. Shell Buildings
 E1 **Shell Buildings.** In order to qualify for the shell building fee, the building shall be new (not an already existing building). \$ _____
 The fee shall be based on the entire square footage of the subject building and that fee shall be calculated at 50% of the total fee for that Particular fee group.
 E2 **Shell Building Tennant Build-Out.** When an application is submitted for construction of the interior of a building where the shell of the building has been previously granted a permit, the fee shall be based on the square footage of the tenant build-out and that fee shall be calculated at 50% of the total for that particular fee group.

F. Private Fire Service and Fire Hydrants: \$125.00 \$ _____
 Note: The fee for review of the plans for private fire service mains and fire hydrants shall not include systems installed for fire suppression.
