ACCOUNTANTS' COMPILATION REPORT

To the Village Board
Village of McFarland
McFarland, Wisconsin

We have compiled the accompanying Balance Sheet, Historical Summary of Project Costs, Project Revenues and Net Cost to be Recovered Through Tax Increments and Historical Summary of Sources, Uses, and Status of Funds of the Village of McFarland's Tax Incremental District No. 3 ("district") as of and for the year ended December 31, 2013 and from the date of creation through December 31, 2013. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the compilation in accordance with *Statements on Standards for Accounting and Review Services* issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

As discussed in Note 1, the financial statements present only the transactions of the district and do not purport to, and do not, present fairly the financial position of the Village of McFarland as of December 31, 2013, and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

As described in Note 1, the district adopted the provisions of GASB Statement No 65, *Items Previously Reported as Assets and Liabilities*, effective January 1, 2013.

The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. The supplementary information has been compiled from information that is the representation of management. We have not audited or reviewed the supplementary information and, accordingly, do not express an opinion or provide any assurance on such supplementary information.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economical, or historical context.

COMPILED
NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013 and
From the Date of Creation Through December 31, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Village of McFarland's Tax Incremental District No. 3 (the "district") conform to accounting principles as applicable to governmental units and as defined by Wisconsin Statutes Section 66.1105.

The Village of McFarland has implemented accounting principles generally accepted in the United States of America to the extent they apply in determining the scope of the activity of Tax Incremental District No. 3. The accompanying financial statements reflect all the significant operations of the Village of McFarland's Tax Incremental District No. 3. The accompanying financial statements do not include the full presentation of the Village of McFarland.

In March 2012, the GASB issued Statement No. 65 – *Items Previously Reported as Assets and Liabilities*. This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. This standard was implemented effective January 1, 2013.

A. DESCRIPTION OF FUND STRUCTURE AND LONG-TERM DEBT

This report contains the financial information of the Village of McFarland's Tax Incremental District No. 3. The summary statements were prepared from data recorded in the following funds and the village's long-term debt:

General Fund
Capital Projects Fund

Detailed descriptions of the purpose of these funds and long-term debt can be found in the Village of McFarland's basic financial statements.

The data was consolidated for purposes of this report. Therefore, the amounts shown in the accompanying statements will not directly correlate with amounts shown in the basic financial statements.

The district was created under the provisions of Wisconsin Statute Section 66.1105. The purpose of that section is to allow a municipality to recover development and improvements costs in a designated area from the property taxes generated on the increased value of the property after the creation date of the district. The tax on the increased value is called a tax increment.

The statutes allow the district to collect tax increments until the net project cost has been fully recovered, or until 23 years after the creation date, whichever occurs first. Project costs uncollected at the dissolution date are absorbed by the Village of McFarland. Project costs may be incurred up to five years before the unextended termination date of the district.

COMPILED
NOTES TO FINANCIAL STATEMENTS
As of and For the Year Ended December 31, 2013 and
From the Date of Creation Through December 31, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. DESCRIPTION OF FUND STRUCTURE AND LONG-TERM DEBT (cont.)

<u>Plan Amendment</u>	<u>Adoption Date</u>	<u>Last Date to Incur Project Costs</u>
TID No. 3	12/10/07	08/09/23

B. BASIS OF ACCOUNTING

The modified accrual basis of accounting was followed in the preparation of these statements. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Project costs, other than interest on long-term debt, are recorded when the related fund liability is incurred.

District increments are recorded as revenues in the year due. Intergovernmental aids and grants are recognized as revenues in the period the related expenditures are incurred, if applicable, or when the village is entitled to the aids.

Other general revenues are recognized when received in cash or when measurable and available under the criteria described above.

C. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

D. MEASUREMENT FOCUS

The measurement focus of all governmental funds is the funds flow concept. Under the funds flow concept, sources and uses of financial resources, including capital outlays, debt proceeds and debt retirements are reflected in operations. Resources not available to finance expenditures and commitments of the current period are recognized as unearned/unavailable revenue or nonspendable fund equity. Liabilities for claims, judgments, compensated absences and pension contributions which will not be currently liquidated using expendable available financial resources are shown in the long-term debt footnote disclosure. The related expenditures are recognized when the liabilities are liquidated.

E. PROJECT PLAN BUDGET

The estimated revenues and expenditures of the district are adopted in the project plan. Those estimates are for the entire life of the district, and may not be comparable to interim results presented in this report.

DRAFT

**VILLAGE OF MCFARLAND
TAX INCREMENTAL DISTRICT NO. 3**

COMPILED
NOTES TO FINANCIAL STATEMENTS
As of and For the Year Ended December 31, 2013 and
From the Date of Creation Through December 31, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

F. LONG-TERM DEBT

Short-term liabilities are recorded as fund liabilities. All other long-term liabilities are shown in the long-term debt footnote disclosure.

Proceeds of long-term debt issues not recorded as fund liabilities are reflected as "Sources of Funds" in the operating statement of the recipient fund. Retirement of these issues is reported as an expenditure in the year in which the debt matures or is repaid, whichever is earlier.

G. CLAIMS AND JUDGMENTS

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments is only reported in governmental funds if it has matured. Claims and judgments are disclosed in the long-term debt footnote when the related liabilities are incurred. There were no significant claims or judgments at year end.

NOTE 2 – CASH AND TEMPORARY INVESTMENTS

The district invests its funds in accordance with the provisions of the Wisconsin Statutes 66.0603(1m) and 67.11(2).

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income.

The district, as a fund of the Village of McFarland, maintains common cash and investment accounts at the same financial institutions utilized by the Village of McFarland. Federal depository insurance and the State of Wisconsin Guarantee fund insurance apply to the Village of McFarland as an individual municipality, and, accordingly, the amount of insured funds is not determinable for the district.

NOTE 3 – LONG-TERM DEBT

A. GENERAL OBLIGATION DEBT

All general obligation notes and bonds payable are backed by the full faith and credit of the Village of McFarland. Notes and bonds borrowed to finance the district's expenditures will be retired by tax increments accumulated by the TIF District No. 3 fund. If those revenues are not sufficient, payments will be made by future tax levies.

Totals	<u>\$ 2,695,000</u>	<u>\$ 710,139</u>	<u>\$ 3,405,139</u>

NOTE 4 – ADVANCES TO VILLAGE FUNDS

TIF District No.3 is advancing funds to TIF District No. 4. The amount advanced is determined by the deficiency of revenues over expenditures and other financing sources since the District's inception. No repayment schedule has been determined for the advances. TIF District No. 3 is charging TIF District No.4 interest on the advance based on the average outstanding advance balance during the year at a floating interest rate. The interest charged for 2013 was \$445 at a rate of 0.10%.

In 2013, TIF District No. 3 advanced an additional \$69,909 to TIF District No.4. The cumulative amount advanced including interest as of December 31, 2013 is \$480,117.

NOTE 5 – GUARANTEED REVENUE

During 2004, the Village of McFarland entered into a development agreement with High Track, LLC. The agreement guarantees that the developer will pay the difference between the guaranteed tax increment and the tax increment actually levied on an annual basis.

During 2004, the village loaned High Track (the developer) \$1,500,000 for eligible costs under the Tax Incremental law. The developer proposed to construct within TID No. 3 a cold storage facility (approximately 140,000 square feet) and related offices, with the estimated final completion value of approximately \$9,000,000.

The developer agreed to construct the cold storage facility in TIF District No. 3 so that the fair market value on January 1, 2005 would generate a tax increment of \$150,000. If the development generated less than \$150,000, the developer would owe the village the difference. The payment would be made by the developer to the village. One-half of the payment was due on or before January 31, 2006 with the balance due on or before July 31, 2006. The actual property taxes for 2005 totaled \$137,832, thus triggering a supplemental increment requirement of \$12,167. Consistent with the terms of the agreement, half of the supplemental payment was due January 31, 2006 and the remaining half due July 31, 2006.

By January 1, 2006, the developer agreed that the fair market value of the facility would generate a tax increment of \$225,000. If the development generates less than this amount, the developer is required to annually, thereafter, pay the village a sum which is the difference between the increment generated and \$225,000. This payment will be made semi-annually by developer to village on or before January 31 and July 31 of each succeeding year.

During 2007 - 2013, the fair market value of the facility generated enough increment that no supplemental increment payment was required to be made by High Track.

In May 2010, the High Track refrigerated warehousing business located at 4704 Terminal Drive was sold by High Track, LLC to Midwest Refrigerated Services, Inc. As a result of the sale and reduced demand for warehousing space due to the weak economy, the assessed valuation of the real estate decreased from \$15,785,900 in 2009 to \$13,600,000 in 2010. The property continues to have the highest value of any single property in TIF District No. 3 and the value is not expected to decrease further. The sale and change in property value should have no bearing on the repayment of the loan as the current loan was assumed by the new owners and the annual property taxes exceeds the guaranteed annual tax increment of \$225,000.

The Village of McFarland has also entered into development agreements with Spartan Properties and 84 Lumber under which TIF District No. 3 has provided loans to facilitate two separate redevelopment projects. Both of these development agreements guarantee certain minimum assessed valuations for the properties in the year following the completion of construction. If the actual assessed values fall short of the guaranteed assessment amounts, the developers are obligated to make additional payments to the village equivalent to the property taxes that would have been due on the shortfall in valuation. At the end of 2013, the village has a receivable in the amount of \$59,513 from Spartan Properties and \$33,229 from 84 Lumber, to be received in 2014, for shortfall payments.

From the Date of Creation Through December 31, 2013

NOTE 5 – GUARANTEED REVENUE (cont.)

The 84 Lumber wholesale building products business located at 4414 Terminal Drive has closed and the property is for sale. With a 2012 assessed real estate valuation of \$4,000,000 this property has the second highest value of any single property in TIF District No. 3. It is unclear what effect a sale might have on the assessed valuation but it is possible the value could decrease. The existing loan from TIF District No. 3 to 84 Lumber has a due on sale provision which would likely be exercised by the Village.

Partial construction on the Spartan Properties redevelopment project located at 4915 Voges Road commenced in 2012, but challenging market conditions and tight real estate lending practices make uncertain the timetable for completing full redevelopment of the site. It is anticipated, therefore, that TIF District No. 3 will remain heavily reliant on developer make-up payments in 2014 and 2015. These make-up payments are secured by a bank letter of credit and by a mortgage to the property.
