VILLAGE OF MCFARLAND NEWSLETTER

MAY 2015

Ingrid Thompson Retiring From McFarland Senior Outreach

After 17 years of service, Ingrid Thompson will retire as the Director of the Senior Outreach Department June 12. Ingrid initiated programs such as the Romeos, Juliets and Red Hatters, and she was instrumental in building the bocce courts and promoting the game. She received the 2012 ElderAce Award for Advocacy from the Greater Wisconsin Association on Aging Resources (GWAAR) and the 2013 "Professionalism" Award from the Wisconsin Association of Senior Centers. Please join the Senior Outreach Department in thanking Ingrid for her dedicated service to McFarland area seniors and her continual efforts to improve the department and the community. We wish her a long, healthy, and enjoyable retirement.

New Ambulance Added by McFarland Fire & Rescue

McFarland Fire and Rescue took delivery of its new ambulance at the end of March. The work to design this new vehicle was completed in 2014 by a committee comprised of members of the Fire & Rescue Department including: Chris Dennis, Steve Brandt, Terry Cullen, Andrea Singletary, Tim Lau, and Justin Grenawalt. This new vehicle replaces a 2002 ambulance that has more than done its job for our community. As you see the new ambulance you will notice the paint scheme coincides with the other vehicles that the Department operates. The ambulance is functional for emergency services, fiscally responsible and safe for both the EMTs and patient. This new ambulance features a suspension which is hydraulic in nature which results in a significantly smoother ride, a power load which assists with lifting the cot into the ambulance, and also 4-wheel drive for the Wisconsin winter roads.

McFarland's April Election Results

A total of 1304 Village electors (23.83 percent turnout) cast their ballots at the April 1, 2015 Spring Election. The following candidates were elected to serve two-year Trustee terms, commencing April 21:

Village President	Brad Czebotar, 5211 Cook Street
Village Trustee	Stephanie Brassington, 5913 E. Open Meadow
	Thomas Mooney, 6205 Pheasant Run
	Clair Utter, 5220 Rustling Oaks Lane

These newly elected officials join incumbent Trustees Jerry Adrian, Mary Pat Lytle, and Dan Kolk.

You can contact your elected officials by using their names as listed above, with this standard e-mail address format – firstname.lastname@mcfarland.wi.us. The exception being Trustee Mary Pat Lytle whose email address is marypat.lytle@mcfarland.wi.us.

Shared Table Serving Groups Needed

Some summer and fall opportunities to prepare and serve a free nutritious meal at the Shared Table Free Community Meals, Inc. are still available. Meals are served every Thursday at 5 p.m. at McFarland Lutheran Church on the corner of Marsh Road and CTH MN. Shared Table meals are prepared by a different community group each week and are offered to anyone who is food insecure or who would like to enjoy a meal and conversation in a friendly welcoming atmosphere. All are welcome.

Shared Table

Community groups, congregations, neighborhood groups and businesses are invited and encouraged to sign up. If interested, please contact Meal Coordinator Vicki Holten at 345-3403 or by email at marvin911@charter.net. To learn more about the Shared Table, go to www.sharedtablecommunitymeals.com.

Check out the Village of McFarland website for electronic copies of the newsletter, and other important information from various Village departments. The site is a great resource for whatever you want to know about the community you live in.

McFarland Historical Society Ladies Afternoon Tea Planned for Saturday, July 11

The Ladies Afternoon Tea will be held on the lawn of the Larson House Museum again this summer Saturday, July 11, from 1 to 4 p.m. Tickets go on sale on Memorial Day at the McFarland Historical Society's Main Street Museum and at the Larson House Museum. A limited number of tickets are available. After Memorial Day tickets will be available at the McFarland House Café and McFarland State Bank. Rain date for the event is July 18.

At the McFarland Historical Society meeting in March, Sean Kohl (L) received a plaque to be placed in the herb garden that he planted as his Eagle Scout project. Tyler Bexson (M) received a plaque which will be attached to the pergola he constructed in the backyard. Dale Marsden (far right) presented gas cards to the Larson House Museum mowing crew: Deb Nygaard (representing her husband Larry), Jim Harried, Tim Mitchell and Bill Mitchell. Not pictured is Joe Marking, Jr.

McFarland Historical Society Recognizes Volunteers

The McFarland Historical Society honored several people at the annual meeting in March. Eagle Scouts Sean Kohl and Tyler Bexson each received a plaque to identify his Eagle Scout project at the Larson House Museum. Kohl's plaque will be placed in the herb garden he created. Bexson's plaque will go in the pergola he built in the backyard. The Larson House Museum mowing crew received special recognition and a gift of gas cards for keeping the museum's lawns in shape during the past two years.

The McFarland Historical Society took part in the Village's Spring Cleaning event Saturday, April 25. Crews worked at both the Main Street Museum and at the Larson House Museum. These museum locations, as well as the Skare Log Cabin and the Farm Display Annex, will be open beginning Memorial Day and every Sunday throughout the summer from 1–4 p.m. Tours are free and open to the public, but donations are always welcome. The following publications will be available at all events and occasions: *City of the Second Lake, A History of McFarland, Wisconsin*; *Memories of McFarland*, by Crystal Lokken; *The Magic of Chocolate*, edited by Judy St. Clair; *Larson House Museum: History and Restoration* by Jane Licht; *Village Memories* by Dorothy Helmke and *Historic McFarland, A Walking Tour* by Ron Larson.

Visit www.mcfarlandhistorical.org for information about McFarland Historical Society.

2015 Property Assessment Process

The Village sustains full value maintenance process for property valuations. This process maintains 100 percent value each year and ensures that assessed values are kept more in line with current market values. The Village's assessor will also inspect 25 percent of the properties within the Village each year on a four year rotating cycle to better maintain assessment equality across the classes of properties. Unlike in the past, this approach to property valuation will likely mean that the assessed value of your property will change every year to reflect the market. Watch for a mailed notice from Accurate Appraisal, the Village's assessor, indicating the current and former valuation of the property. If you disagree with the valuation, you may want to take advantage of the Open Book and Board of Review processes described below. Remember that an increase or decrease in the value of your property does not mean there will be a corresponding change in the amount of property taxes you will pay the following year.

Open Book – Open Book will be held Wednesday, May 6 from 4–8 p.m. and Thursday, May 7 from 2–7 p.m. in the Community Room of the McFarland Municipal Center, 5915 Milwaukee Street. Open Book is an important first step if you have questions or concerns about your property assessment and offers an informal opportunity for you to meet personally with the assessor to discuss your assessment and find out the basis on which your assessment was determined. At Open Book the Property Assessment Roll for the entire Village will be open for public review and property owners can check the Roll to compare their assessment to that of similar properties.

To schedule an appointment for Open Book on-line go to www.accurateassessor.com. Once on the Accurate Appraisal, LLC Home Page, go to [Click here](#) to schedule your open book or walk thru appointment, click on Open Book Appointment, and then click on McFarland Village of and schedule a date and time to meet with the assessor. If you do not have computer access you can schedule an appointment for Open Book by calling Accurate's toll free number 800-770-3927.

Board of Review – Board of Review will be held Thursday, May 28 starting at 9 a.m. in Conference Room A of the McFarland Municipal Center. The first formal step in the property assessment appeal process starts at the Board of Review. If you disagree with your property assessment after attending Open Book, you can appeal to the Board of Review. The Board of Review is a quasi-judicial body that can adjust assessments when they have been proven incorrect by sworn oral testimony. Evidence you may present to support your opinion of the property value may include recent sale prices of like properties, appraisals, a competitive market analysis prepared by a Realtor or the location, effective age, and condition of the property, among other things. At the Board of Review both the assessor and property owner present oral testimony under oath. The Board of Review is legally bound to accept the assessor's assessment as correct unless there is factual evidence presented that proves the assessment to be incorrect.

To schedule an appeal before the Board of Review you will need to obtain an "Objection Form for Real Property Assessment" from the Village Clerk whose office is located in the Administration Department of the McFarland Municipal Center, 5915 Milwaukee Street. An appointment will be scheduled upon submittal of a completed form to the Village Clerk. To assure a hearing, you must complete and deliver an "Objection Form for Real Property Assessment" to the Village Clerk at least 48 hours prior to the Board of Review meeting.

You can find more complete and detailed information on the property assessment process by obtaining the "2015 Guide for Property Owners," published by the State of Wisconsin Department of Revenue. This publication will be available around March 1 and can be obtained from the Village Clerk or online at www.revenue.wi.gov/pubs/slf/pb060.pdf.

Cable Channel 98 or 982

Meetings of Village government authorities, boards, committees and commissions are generally televised live on Cable Channel 98/982 and then replayed on a scheduled basis over the next month. Check the Village website at www.mcfarland.wi.us/cableschedule for the most up to date program schedule for each week. Videos of Village meetings are also available for download at www.mcfarland.wi.us/onlinevideo.

Second Installment of Real Estate Property Taxes Due

If you pay your real estate property taxes in installments, the second installment is due on or before July 31. Checks must be made payable to "Dane County Treasurer" and mailed to Dane County Treasurer, P.O. Box 1299, Madison, Wisconsin, 53701-1299. If you wish to make your payment in person, you can do so at the Dane County Treasurer's Office located in Room 114 of the City-County Building, 210 Martin Luther King, Jr. Boulevard, Madison.

Coffee with a Cop

The Police Department has launched a new community outreach program called Coffee with a Cop. This program has proven to be successful in other communities, giving residents and officers an opportunity to meet over coffee, get to know each other and engage in conversation.

Our first Coffee With a Cop event took place March 21, and our second April 7. Both were huge successes. A third event has been planned for: May 3 at Spartan Bowl, 9-11 a.m.

Stay tuned for more information about the program.

Want to Host?

If you are interested in participating or hosting an event, contact Officer Jackie Statz at jacqueline.statz@mcfarland.wi.us.

Pet Ordinance Requirement Reminders

The Village would like residents to be aware of three important ordinance requirements that pertain to dogs and cats.

- The first is that any person who owns, harbors, or keeps a dog or cat that is at least five months old must obtain a license within 30 days of acquisition — and renew it on an annual basis.
- The second is that the owner or person in charge of the animal must immediately remove any feces deposited by the animal on public or private property. This is important not only for public nuisance and public health reasons, but also to reduce the environmental impacts of having any harmful nutrients from this material carried to bodies of water by surface run-off.
- The third ordinance requirement is that animals not be permitted to run at large. When walking a pet, it must be on a leash that is no longer than 10 feet in length and under the control of a person that is physically able to restrain the animal.

Please be a responsible and considerate pet owner and obey these ordinances for the sake of your neighbors.

McFarland Dog Exercise Area Permit

McFarland Dog Park permits for 2015 may be obtained at the Administration Department, located in the McFarland Municipal Center, 5915 Milwaukee Street. Please make checks payable to "Village of McFarland."

Fees:	\$15.00 (resident)	\$25.00 (non-resident)	
	\$10.00 (senior)	\$ 6.00 (additional dog)	

Your pet must also be properly licensed in the community where you live in order to be eligible for a Dog Park permit and must display a 2015 dog tag in order to use the Dog Park.

The park is located on Elvehjem Road at the intersection of Elvehjem Road and Perrot Place. It is at the eastern edge of Urso Park.

Pet Ordinance Reminder

The Village would like residents to be aware of a requirement that pertains to dogs and cats. The owner or person in charge of the animal must immediately remove any feces deposited by the animal on public or private property. This is important not only for public nuisance and public health reasons, but also to reduce the environmental impacts of having this harmful nutrient from this material carried to bodies of water by surface run-off.

Employee or Volunteer	Department	Years
Timothy Lau	Fire/EMS	5
Paul Kristapovich	Fire	10
Jeremy Olson	Fire	10

These employees and volunteers are observing significant service anniversaries in the second quarter of 2015. The Village thanks them for their length of service and commitment to serving the residents of McFarland.

Independence Day — Celebrate Safely!

Clean Sweep Center

The regional Clean Sweep and Product Exchange Center is located at the Dane County Landfill, 7102 US Highway 12, (across from Yahara Hills Golf Course). Items that can be safely discarded at Clean Sweep include household paints, pesticides, insecticides, herbicides, aerosols, rechargeable batteries, and other household products containing solvents.

The Center will be open in 2015 from May–Oct. 31. The hours are Tuesdays through Fridays from 7 a.m.–2:45 p.m. and Saturdays 8–10:45 a.m. For further information on specific types of materials that are accepted or the Product Exchange program, please call Dane County Clean Sweep at 243-0368 or visit www.danecountycleansweep.com.

Block Party Permits Required to Close Street

Along with street construction and mosquitoes, warm weather also means neighborhood block parties. If you are interested in actually closing off a section of a public street for your block party, it is necessary to first obtain a Street Closing Permit from the Village. The proposed street closing must be reviewed by the Police Chief, Fire / EMS Chief, and Public Works Director for potential public safety and traffic flow impacts and then approved by the Village Board. It is recommended, therefore that applications for these permits be made at least one month in advance of the event. Incidentally, the Public Works Department will also drop off and pick up barricades that can be used to block off both ends of the street to traffic during the block party. Call 838-3153 for more information about how to obtain a Street Closing Permit.

McFarland Bike Rodeo

When: Saturday, May 9th
Drop in anytime between
8:30-11:30 a.m.

Where: McFarland High School Parking Lot

If there is inclement weather ie. *lightning*, we will see you Saturday, May 16th same place and time.

McFarland Cemetery Adds Columbarium

A new columbarium for cremation burials has been added to the lower McFarland cemetery across from the McFarland Lutheran Church. The above-ground columbarium has 40 niches or urn compartments for sale. Five have already been sold. The average cost of a full burial in Wisconsin is \$8,000 to \$10,000 per person. Each niche in our columbarium will accommodate two urns at a total cost of \$1,500, which includes standard engraving on the face plate. There are no other cemetery costs.

Further information may be obtained from cemetery president Larry Chatman at 838-3431 or by email at larrychatman@me.com.

Do I Need a Building Permit?

Doing home improvements this year? Please remember to obtain building permits for these projects *prior* to the start date of your project and allow three to five days for applications to be processed. Permits are required even if doing the work yourself. Permit applications are available at the Municipal Center or online at www.mcfarland.wi.us. A permit is not considered issued until picked up and paid for.

Building Permits are required for:

An addition or change to the *exterior* of your home. Examples include:

- Re-roofing
- Re-siding
- Replacing window(s) and exterior doors
- Installing a fence
- Installing or altering the right of way portion of a driveway
- Installing a swimming pool, whirlpool or hot tub
- Building any accessory structure (garage, shed, chicken coop)
- Any type of electrical, heating or plumbing work
- Adding or altering a screened porch or deck

An addition or change to the *interior* of your home. Examples include:

- Hot tub or whirlpool installation
- Finishing an unfinished basement
- Bathroom or kitchen remodeling and/or alterations
- Installation of wood stoves and fireplaces
- Replacement of a furnace or central air conditioner
- Replacement of water heaters and water softeners
- Any type of electrical, heating or plumbing work

Building Permits are not required for:

- Installing storm windows and screens
- Making minor repairs
- Changing flooring, carpet, inlaid tile or wood
- Installing private sidewalks on your property
- Installing or resurfacing the portion of a driveway not in the right of way
- Replacing a garage door – no carpentry
- Replacing an interior door / trim
- Patios: cement, rock, brick
- Stoop: cement

If you do not get a building permit when required, (even if doing the work yourself) the Village can double the fees, stop work, and fine you for every day the work is not in compliance. Permits and subsequent inspections help protect you by ensuring that the work is “up to code” and safe.

During the construction of your project, on-site inspections will be conducted to check that approved materials are used and the work meets code requirements. Any work or materials that are not up to code will need to be corrected and re-inspected. Inspections guard the safety of the occupants and your property investment.

If you are unsure of whether your project requires a building permit, please call the Community Development Department at (608)838-3154 or stop by the Municipal Center, Monday – Friday, from 8 a.m. to 4:30 p.m.

K9 Boris Receives His Vest

The Police Department is happy to announce that K-9 Officer Boris has received his protective duty vest, a valuable piece of lifesaving equipment. A big thank you goes to Wisconsin Vest a Dog and donors for the provision of the vest. Wisconsin Vest A Dog (www.wivestadog.org/) is an organization that does all of the fundraising for law enforcement agencies so they can properly outfit the K-9s with protective vests. Our donors and sponsors are the best!

K-9 Officer, Boris

Reach-A-Child Presents Book Bags to McFarland Police and Fire/EMS

On April 8, the Reach-a-Child program (<http://reachachild.org>) in conjunction with 100+ Women Who Care Madison (www.100wwcmadison.org) and The Little Gym of McFarland (www.thelittlegym.com/mcfarlandWI/Pages/default.aspx) presented 12 fully stocked book bags to the McFarland Police and Fire/

EMS Departments. The donation resulted from a Reach-a-Child held at The Little Gym in McFarland in March. While the fundraiser was a huge success, the proceeds fell just short of the amount required to provide the book bags. Upon learning of this, the 100+ Women Who Care Madison stepped in and donated the remaining funding needed to complete the process. Angela Keelan-Martinez, Co-Founder of the 100+ Women Who Care Madison, said "We are thrilled to learn of the impact our member donations to Reach-a-Child will have assisting McFarland First Responders and the children they help during times of crisis." The book bags are provided by first responders to children in crisis situations to help them cope with what is happening.

"The Little Gym of McFarland was excited to host this fundraiser because children are what we are all about. Teaming up with Reach-A-Child was a positive experience and we would like to do more events like this in the future. We feel it is important to be active in the community and give back when we can. We enjoyed meeting many new families and introducing them to The Little Gym. Thank you to all who donated to this event," said Ronda Bernhardt, owner of The Little Gym.

McFarland Chief of Police Craig Sherven said "Reach-a-Child is a great program. While it may be hard for an adult to understand, giving a child a book to look at during a crisis situation can have a very positive effect and divert their attention away from what is going on around them. This not only helps in the moment, but can also have positive long-term effects as the child may have been prevented from seeing much of what is going on. It can bring a sense of normalcy to chaotic situations."

The McFarland Police and Fire/EMS Departments would like to thank The Little Gym, the Reach-a-Child Organization and the 100+ Women Who Care Madison for this hard work and generous donations.

A message from Police Chief Sherven

Top Mobile Apps to Keep Your Children Safe

Every year, thousands of children go missing. A report reveals that a child goes missing in the UK every 3 minutes and the travesty is getting worse. In many parts of the world, losing a child is not something we should be lackadaisical about. In mere seconds, a child could be removed from the watchful eye of parents, in mere hours, removed from the state or the country. One of the better ways to keep watch over our young ones is with their smartphones. You might be a parent who is not keen on letting your child be exposed to a smartphone at too young an age, but bear with us and read on, these safety (free) apps may possibly change your mind. (Kay Tan, Hongkiat.com)

Sygic Family

Sygic Family keeps your family safe by allowing you to check the real-time location and the battery levels of your family members' smartphones. You can also track your children's whereabouts, or have them check-in periodically to let you know where they are and if they have arrived at their destination safely. The app also has an in-built messaging system which lets you send messages for free over an Internet connection. You can also set Safe or Unsafe zones – a notification will be sent to you when they enter or leave these zones. There is also an SOS button available in this app, which lets you send out your exact location at the tap of the button. You never know when you might need it.

Life360

Life360 has many of the same features Sygic has: GPS locations of your family members via their smartphones, a panic button, and alerts when someone enters a preset zone (e.g., gets home). It also lets you check where they have been (location history), where to get help in an emergency (hospitals, police stations), and allows you to have group chats. If

EMS to Hold Annual Pancake Breakfast

McFarland EMS will once again host the annual pancake breakfast. Members of the EMS will serve hot pancakes, sausage, eggs, toast, applesauce and beverages. The Event will be held from 7 a.m.-noon Sunday, May 17, at the McFarland Municipal Center located at 5915 Milwaukee Street. Bring the family and view actual equipment used by Emergency Medical Technicians. Staff members will also be on hand to answer any questions. Proceeds will be used for continuing advanced education and volunteer programs, to support community education, and to upgrade medical equipment. The cost of this all-you-can-eat breakfast is \$7.00 for adults and \$5.00 for children 12 and under.

Prevent Oak Wilt

Do not trim oak trees between March 1 to Nov. 1.

McFarland Fire & Rescue

By Bradley Bowen, Chief

As many of you are aware in January 2014 the Fire and EMS Departments consolidated to become one single department which is now referred to as McFarland Fire & Rescue. The first year together went very well. First, we began the process of acquiring two vehicles for the Department. In 2014, thanks to the hard work of the paid on-call firefighters, the Department received new Self Contained Breathing Apparatus that was primarily funded through a Federal Assistance to Firefighter Grant. Additionally another Federal Grant was awarded for a powerload system to be installed in the primary ambulance. These grants greatly improved the services that the Department provides to the community, and also improve the safety of the firefighters and EMT's that respond.

So far 2015 has been a busy year, beginning with the hire of full-time EMT Dylan Laue. In January, members of the Department reviewed the work of 2014 and began the goal setting process for 2015. This year has been a great year for training the firefighters and EMT's of McFarland Fire & Rescue. In January the Department hosted a regional ice rescue training that was sponsored and paid for by the Sterns Company. In February the Department hosted two regional trainings, with the first being a federally sponsored response to railroad emergencies. The second was a leadership training taught by Fire Chief Craig Haigh from Hanover Park, Illinois. All of these trainings have proven to be beneficial to the firefighters and EMT's of McFarland Fire & Rescue.

In March the Department completed promotions for various paid on-call officer positions. The process demonstrated the caliber of professional firefighters and EMT's that serve the community. There were many highly talented leaders that applied for the vacant positions. I offer my congratulations to Division Chiefs John Clementi and Chris Dennis, Captains Steve Brandt and Steve Checki, and Lieutenants Joe Tripalin, Brian Molenaar, Jim Reiter, Bryan Spangler, and Ross Williams on their recent promotions. Also in March, Administrative Captain Scott Russell accepted a different full-time position in another community. He had worked for the Village for seven years and has been involved in many of the Departments administrative and operational functions. We wish him well in his future endeavors.

Burning Prairies

By John Clementi, Division Chief

The reason we burn prairies is to get last year's dead grass burned off so this year's prairie grass comes up nice and green. The nature of burning a prairie also causes the

Burning Prairies, Continued on page 9

Fire Prevention and Education Bureau

By Blake Karnitz, Fire Inspector/Public Education Specialist

Many people believe that Fire Suppression and Emergency Medical Services are all that our Department focuses on. Those are primary roles and responsibility of the Department, but in reality are only a portion of the diverse services and activities we provide to the community; Fire Prevention and education is also a large portion. Also, help with and participate in many fundraisers for local businesses and programs. Most recently, the Department helped raise funds, along with The Little Gym of McFarland and the McFarland Police Department, to bring the REACH-A-Child program to our community. This program provides drawstring backpacks and children's books to put on Police, Fire and EMS vehicles to give to children when on an emergency scene to keep them calm. With donations from all the entities involved, we raised enough money to outfit 12 Police, Fire and EMS vehicles with Reach Bags! The McFarland Fire & Rescue Department also worked together with the McFarland Pick 'n Save on a food drive to benefit the McFarland Food Pantry, which was a great success! Fundraisers and food drives are not all we do though. In 2014 we received a grant that provided us with smoke detectors and bed shakers to install in the homes of the elderly, or those that are unable to change/install their detectors. We currently have quite a few detectors left that we want to be put to good use. If you are in need of updated smoke detectors, Carbon Monoxide detectors, or bed shakers but are unable to install them yourself, please contact us at 838-3278 to get more information and set up an appointment. Throughout the year the Department also teaches CPR classes to members of the community to help increase the number of people in the community that are trained to assist in the event of a cardiac arrest. The Department has teamed up with the McFarland High School to teach the sophomores this life saving procedure as well. Community outreach is an important part of the services which we provide. We are dedicated to protecting our citizens in the event of an emergency, but with public education and fire prevention, we try to stop those emergencies from happening. As always please stay safe!

Burning Prairies, Continued from page 8

seed pods from natural prairie flowers and grasses to burst and go to seed. Prairie burns are a natural process and necessary to maintain a healthy ecosystem. Additionally the invasive weeds, grasses, and flowers are killed off by the heat of the fire. When burning a prairie it is best to back burn into the wind. This causes the fire to actually burn longer and hotter which helps to pop the seed pods and also kill off the invasive species. It is best to burn on days with less than 10 mph of wind. This way the fire should not jump to a non-burned area and get out of control. Prairie burns are conducted in a controlled fashion, with ample water, and other suppression materials available.

Controlled burning of grass or similar vegetation for environmental management purposes, with the prior written approval of the Fire/EMS Chief, may be permitted. This exception is not to be used for the burning of grass, leaves or lawn debris. Any person desiring to burn wood, grass or combustible material shall apply for a burning permit at the Village Hall.

Mobile Apps, Continued from page 7

you don't have a smartphone, you can still use this with a mobile phone at RM4.99 per month, for up to 5 mobile phones (only in the U.S.). A text message will be sent to them and once they consent to it, their location would be tracked and sent back to you. The app tries its best to not be a monitoring app but more of a communication tool to help bring families closer together and safer too.

MamaBear

Here is another great app for keeping your children safe; the difference is, it also helps keep your child safe online. MamaBear has a feature to keep watch over your child's Facebook feed. You will be alerted to any signs of bullying or use of crude language as well as when they check-in or get tagged on their friends' photos. The team is working on doing the same for Twitter and Instagram profiles. Offline, you will receive alerts for when they leave a place, when they need to be picked up, when they are driving or riding past a certain speed limit, or when they explicitly need you in an SOS cry for help. This app will give you either peace of mind or great conversation starters on talking about speeding, truancy, open communication channels, and how to stay safe at all times.

Google Latitude

Google Latitude is less of an app and more of a tracking tool. It allows you to see where your family members are on a map, and easily keep in touch with them. To use it, sign in to Google Latitude and start adding your family members via their Gmail contacts.

When they accept, you can see their locations on Google Map on your phone. Their locations will be at the background even when the app is closed or when your smartphone is locked. An-droid users have a widget they can setup. You can also get the app to check you in automatically at a preset place. As this is not restricted to family members you can use it to check just about anyone's whereabouts, provided they are on Google Latitude.

Garbage and Recycling Schedule

Your waste and recycling materials are collected on either Tuesday or Wednesday, and should be placed curbside by 6 a.m. If a holiday falls on a Monday or Tuesday, trash pickup will be Wednesday. If a holiday falls Wednesday, trash pickup will be Thursday.

2015 Holiday Schedule

- May 26 pickup will be May 27
- May 27 pickup will be Thursday, May 28
- Sept. 8 pickup will be Wednesday, Sept. 9
- Sept. 9 pickup will be Thursday, Sept. 10

For more information, check the Village website at www.mcfarland.wi.us.

Grass and Weed Height Ordinance

McFarland Municipal Ordinance Sec. 20-26 requires that owners maintain their property and keep lawns properly mowed. Grass and weeds cannot exceed 8" in height. The ordinance states that after five days from being notified that your property is in violation of the ordinance, the Village may mow the property and bill the owner for the mowing. Property owners can also be cited for each and every day the property was in violation. First violations are not less than \$50.00 per day. If a property owner is cited a second time in that year, property owners can be cited not less than \$100.00 nor more than \$300.00 beginning with the day the second or subsequent notice is served. Fines can be easily avoided by abiding by the ordinances set within the Village and maintaining your properties or hiring someone to do so throughout the growing season.

Give Your Lawn a Checkup Before You Fertilize

After a long winter under a deep blanket of snow, your lawn is finally visible again, matted and brown. You may be thinking about spring cleaning and maintenance, including an application of fertilizer to ensure lush, green grass this summer. Before you fertilize, test your soil to see what your lawn needs. You may be wasting your time and money, and sending excess nutrients to local waterways where they feed algae and damage fish habitat, if you don't test first.

If your soil already has the right balance of nitrogen, phosphorous and potassium, you don't need to fertilize. To figure out your lawn's needs, send in a soil sample to be tested. The University of Wisconsin has a soil testing lab right in Madison. Any Wisconsin soil can be submitted for analysis at a cost of \$15/sample. A sample is two cups of soil collected in multiple places from the top 4 inches of your lawn. The laboratory will return a report for each sample indicating soil pH, percent organic matter, phosphorus and potassium analysis. It will also provide recommendations on the addition of lime (for pH) and fertilizer.

Right now is a great time to test — you should have your results in time for a spring application, *if* one is recommended. You'll find everything you need on the UW soil lab website <http://uwlab.soils.wisc.edu/lawn-garden/> (or google "UW soil testing"), including the submission form and sampling instructions.

Keep your lawn healthy and our area waters clean year-round by:

- leaving grass clippings on the lawn
 - selecting fertilizers with no phosphorus (unless your soil test results show it's needed; it's the law here in Dane County)
 - avoiding weed and feed products
 - calibrating fertilizer spreaders correctly
 - keeping fertilizer off paved surfaces
 - choosing fertilizers with at least 25–50 percent of the nitrogen in slow release form
- Sample soil test report, http://uwlab.soils.wisc.edu/files/forms/lag_sample.pdf.

Samples Analyzed By:		SOIL TEST REPORT				COOPERATIVE EXTENSION	
UW Soil & Plant Analysis Lab 6452 Mineral Point Road Verona, WI 53593 (608) 262-9364		LAWN & GARDEN				University of Wisconsin-Extension University of Wisconsin-Madison Department of Soil Science	
Lab Number: 54321	Date received: 8/1/2007	Account: 555900	Client: Bucky Badger				
County: Dane	Date processed: 8/10/2007						
Send to:	Bucky Badger		Area Type Lawn/Established		Area Designation Lawn		
RECOMMENDATIONS							
Time to Apply							
No soil pH adjustment is recommended.							
Fertilizer to Apply							
Based on the results of your soil analysis, we recommend the following fertilizer program.							
Using the following grid, apply the recommended fertilizers using the spreader setting shown on the fertilizer bag.							
Type of turf fertilizer	May 1-15	July 1-15	September 1-15	October 15-30	Follow rates/spreader settings on the fertilizer bag.		
General high N	A	B	C*	D	A-D: Apply 1 lb actual N/1,000 ft ²		
Starter high P					D: Apply winterizer grade to build K levels for one year then revert to general fertilizer		
Winterizer high K				D			
* Skip the September application if you mulch mow.							
Cultural and Management Tips							
Use only fertilizers manufactured specifically for application on turfgrass.							

The Madison Area Municipal Storm Water Partnership is working with the Rock River Stormwater Group to reduce the amount of pollution making its way to our lakes and rivers. The Yahara chain of lakes and the Yahara River both ultimately drain to the Rock River. Both groups thank you for helping to Renew the Rock by reducing stormwater pollution throughout the Rock River area. Learn more at www.myfairlakes.com and www.renewtherock.com.

Rethinking Yard Care to Help Keep Water Clean and The Environment Healthy

Whether you live in the city or the country, whether your home is large or small, whether you have a lot of time and money to invest in your yard or just a little, there is something you can do to improve water quality. The following suggestions are ways that you can make a contribution to clean water and a healthy environment.

- Leave grass clippings on the lawn.
- Keep fallen leaves out of the street or ditch. Leaves can be used around the yard as practical.
- Plant an extra tree for multiple environmental benefits, especially where it becomes part of a planting bed or “naturalized” landscape area that recycles leaves, twigs, and other yard wastes.
- Seed bare soil and cover it with a mulch as soon as possible to minimize erosion. Disturb no more ground than necessary for a project so that existing vegetation can be preserved.
- Direct roof downspouts away from foundations and driveways to planting beds and lawns where the water can safely soak into the ground. Use a rain barrel where practical.
- Use lawn and garden chemicals carefully and sparingly. Pesticides, including weed killers, should be considered a last resort – other controls come first.
- Limit the use of toxic or hazardous products in general. Keep them away from storm sewers, lakes, and streams.
- Collect oil and other automotive products preferably for recycling, or tightly seal and wrap them for proper disposal.
- Wash cars on the lawn, where soapy water can’t quickly run toward the nearest storm sewer, picking up other pollutants as it goes.
- Keep cars tuned up and in good operating condition. Check for drips and repair leaks immediately to keep nuisance oils off pavement. Better yet, walk, bike or take the bus.
- For waterfront property, grow a “buffer strip” of dense, natural vegetation along the water’s edge to filter pollutants and stabilize the shoreline.
- If using a septic tank system, maintain it properly through regular inspections and licensed pumping every two to three years.
- Monitor fuel use from any underground gas and oil tanks to make sure they are not leaking.
- Plan your landscape with environmental health in mind, reducing the area that is heavily maintained.
- Clean up pet wastes, from which nutrients and bacteria could be washed toward lakes and streams.
- Conservatively use salt in winter. Substitute sand or old-fashioned “chipping” when possible.

Excerpt from GWQ009 Rethinking Yard Care
DNR WT-526-99

Springtime Reminders For Your Property

As you look around your yard this spring please be mindful that no person shall store or accumulate unsightly items such as unlicensed

or inoperable vehicles, commercial trailers or trucks, junk, salvage or rubbish on their property. Building materials, construction or earth moving equipment not being used on a permitted building project, is also not allowed. Storage of recreational vehicles or boats is allowed in an enclosed structure that conforms to the zoning requirements of the district. If indoor parking is not possible, and there is no space in the rear or side yard, storage is allowed on a hard surface or well drained gravel surface. Recreational vehicles cannot be used as living space. Please refer to your local subdivision restrictions and covenants for other requirements specific to your neighborhood.

Firewood storage is permitted in side and rear yards but not more than 15 percent of the area can be used at any one time. Firewood cannot be stored in the front yard.

For more information on Village Ordinances you can go to our website at www.mcfarland.wi.us. Please remember those who violate these ordinances can be fined.

2015 Yard/Garden Waste Pick-Up

The semi-annual curbside collection of leaves, lawn waste, and garden waste was converted in 2012 from a no cost service to a fee-based service. Residents who desire to have this material conveniently collected at curbside will now have to buy and place a village-issued sticker on each bag of material to be collected. The non-expiring stickers will cost \$2.00 per bag (up to 50 gallon size) and will be sold in multiples of five. Stickers will be available for purchase at all municipal facilities and at several retail outlets in the community.

All Zones

Week of May 11 (the whole Village)

Week of Nov. 16 (the whole Village)

Please follow the curbside collection guidelines below:

- Place all material curbside in open bags or trash containers by 6 a.m. on the Monday of the collection week.
- All bags must have a Village-issued sticker on bags in order to be collected.
- Include leaves, garden waste, thatch, grass clippings, non-woody plant materials and evergreen clippings (less than six inches in length.)
- Material must be clean of debris or it will be left on site.
- *Do not* rake leaves to the edge of the curb or into the street.

Other disposal options available to residents are to mulch and recycle the materials yourselves or to transport the material to the free drop-off site located at the Public Works Facility at 5115 Terminal Dr.

The above guidelines will help contractors do their jobs more efficiently and safely.

If you have any questions, please contact the Public Works Department at 838-7287.

(Clip and Save)

2015 Brush Chipping and Yard / Garden Waste Collection Schedule

Zone 1 – Weeks of April 20 and Oct. 26

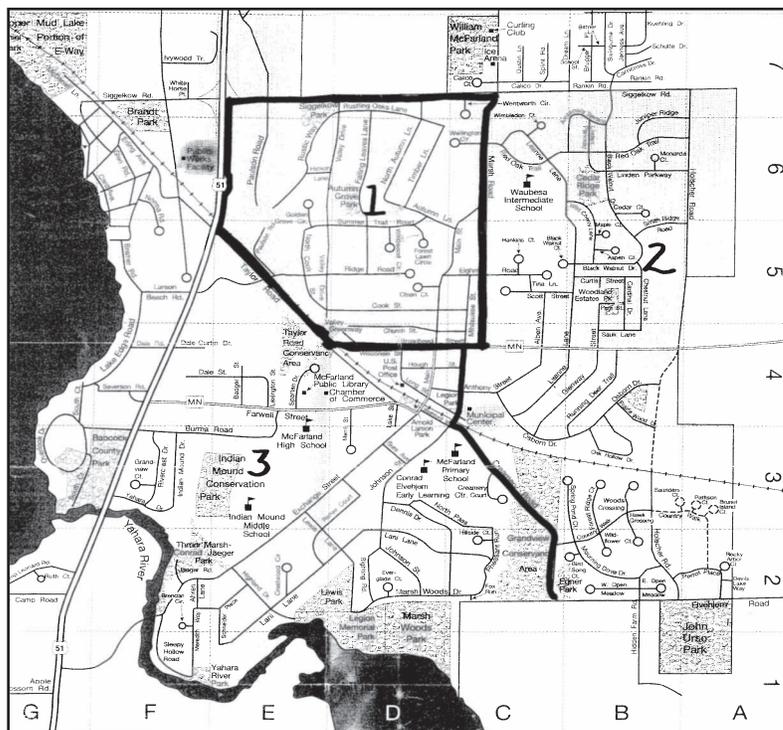

Zone 2 – Weeks of April 27 and Nov. 2

Zone 3 – Weeks of May 4 and Nov. 9

Please follow the brush chipping guidelines below:

- Place all material curbside by 6 a.m. on the Monday of the collection week. The chipping contractor will only make one pass through each section.
- Brush pieces should be no longer than 10 feet and no shorter than 6 inches.
- Brush should not be greater than 3 inches in diameter.
- Place the cut ends of the brush pieces parallel to the curb and stacked in neat piles with the cut ends pointed in the same direction as traffic.
- Material must be free of waste that may clog chipping equipment.

If you set brush out after the chipping has taken place in your area, your brush will not be picked up until the next collection date. If you have any questions contact the Public Works Department at 838-7287.

Emerald Ash Borer Action Recommended

Emerald Ash Borer (EAB) continues to spread throughout southern Wisconsin. Dane County was officially quarantined Nov. 22, 2013 with a new EAB find on the north side of Madison. Since that time two other locations have emerged with one location being very close to McFarland.

Village residents should consider taking action if they have an ash tree on their property. Residents should contact a local arborist or tree care company for assistance. Information on EAB, EAB treatments and other EAB related articles can be picked up at the Village of McFarland Department of Public Works located at 5115 Terminal Drive during regular business hours. Articles will also be posted on the Village website, www.villageofmcfarland.com.

Please contact the Department of Public Works at 838-7287 with any questions about EAB or your ash tree.

Does McFarland Utilities Have Your Phone Number?

It is important for McFarland Utilities to have your current phone number on file so we can notify you of any planned outage events or emergency repairs that require us to temporarily shut off your water or sewer service. Call us at 838-7287 to update your phone number. We do not sell or provide your contact information to anyone.

Oil Drop-Off Site

The Village of McFarland continues to provide the service at our oil drop-off location for collecting oil filters, plastic oil containers and antifreeze.

If Village residents have any questions, please contact the Public Works Department at 838-7287.

Yard Waste and Brush Drop-Off Site

The yard waste/brush drop-off site located at the Public Works Facility at 5115 Terminal Drive accepts yard waste and brush from McFarland residents only. The operating hours of the yard waste/brush drop-off site are 7 a.m.–7 p.m., seven days a week. The site will open approximately April 1, weather dependent.

There are separate dumping areas for yard waste and brush. Please stack your material as close to the back wall as possible to conserve space.

Invasive Plants in McFarland

Be on the lookout for garlic mustard which can be found in gardens, road side ditches, in our parks, and around your homes. It dominates forest floors and displaces most native wildflowers and plants within several years of establishment. Garlic mustard is originally from Europe and was relocated to the United States by early settlers for medical purposes and cooking. It has now spread out of control throughout the East Coast and mid-west destroying valuable natural habitats. Garlic mustard is a biennial weed with its seeds germinating in April. The first year plants appear as basal rosettes in summer and remain green during the following winter, making it possible to detect the presence of the plant throughout the year. Second year vegetative growth begins in early spring and blooms are produced in southern Wisconsin from May through early June. Fruits begin to ripen in mid-July and are disseminated through August. Viable seeds are produced within days of the initial flowering and hundred of seeds may be produced by a single plant. The seeds are believed to be dispersed on the fur of animals, wind, birds and simple human foot traffic. Seeds lie dormant for 20 months prior to germination and remain viable for up to seven years. Garlic mustard plants range from 6” to 36” tall and generally have three to four scalloped-edged leaves. The second year plant produces a white flower that will contain fruits that cover the black seeds that will drop in July. Garlic mustard is particularly difficult to control because of its hardiness. Herbicides and hand pulling can be utilized. If hand pulling, never leave the plants on the ground or put them in the compost bin. The seed will remain viable and may get moved around to other uninfected areas. For more information please contact the Public Works Department at 838-7287.

What is accepted:

- Leaves
- Grass Clippings
- Thatch
- Non-woody Plants
- Brush must be no larger than 3 inches in diameter and 10 feet in length

What is not accepted:

- Rocks
- Concrete
- Metal
- Stumps
- Base Root Balls
- Sod
- Dirt
- Lumber

E. D. LOCKE
PUBLIC
LIBRARY

Seed Library Now Open

Patrons can check out five packets of seeds. Take them home, plant them, and in the fall bring seeds back to the library in the envelopes provided. The seeds have a due date of Sept. 1 but no fines will be charged if the seeds are returned late (or not at all). Some of the varieties are tomatoes, peppers, lettuce, kale, spinach, basil, peas and beans.

Planning your garden? The library has a collection of gardening catalogs that can be checked out for two weeks.

Book Sales

The Friends of the McFarland Library will be holding their book sales on:

Saturday, April 25 9:30 a.m.–3 p.m.

Sunday, April 26 noon–3 p.m.
(Bag Sale – fill bag for \$5)

Saturday, June 13 9:30 a.m.–3 p.m.

Saturday, Sept. 19 noon–3 p.m.

Sunday, Sept. 20 (Bag Sale – fill bag \$5)

Saturday, Dec. 5 9:30 a.m.–3 p.m.

Have you ever ...

Have you ever:

- wondered what graphic novels are about?
- considered taking up a classic that you missed in school?
- tried a new genre like sci-fi or short stories?

Why not try something new and join E.D. Locke Public Library for our adult summer reading program, beginning June 1?

It couldn't be easier: Read three books, record them in the adult reading log provided at the library and submit it to be included in the grand prize drawing at the end of the summer.

This is your chance to escape the ordinary!

May–August 2015 Library Calendar

May 28 2015 Summer Youth Volunteer Orientation, 4–5 p.m.

June 1 First day to register for 2015 Summer Library Program (SLP) reading incentive ONLINE. Paperless registration continues through Saturday, July 25.

June 8 First day to collect SLP reading prizes.

June 10 Book Discussion at 2 p.m. *The Orchardist* by Amanda Coplin.

June 16 Drop-In Preschool Story Time for ages 6 and younger, 10:30 a.m. Continues each Tuesday for six weeks, through July 21.

June 17 “Summer Kick-Off LEGO Days!” Both days, 10–11 a.m. DUPLO building & **18** session for preschoolers; and 2–3 p.m. LEGO building session for ages 6–11. *Please note:* Registration is required, please call 838-9030 ext. 0.

June 23 Community Heroes: McFarland Fire Department visits the library, 2 p.m.

June 24 TeenCreate Duct Tape Workshop, 1:30–3 p.m.

June 25 Groovy Garden Art with Michael Hecht, ages 7 and under at 10 a.m. Sponsored by Skaalen House. Registration required, call 838-9030 ext. 0

June 25 Mr. Billy’s “Super Superhero Songs!” at 2 p.m.

July 1 *SUPER* Midweek Movies! – time and title(s) to be announced.

July 4 Library is closed for holiday

July 8 Book Discussion at 2 p.m. – Book to be announced

July 8 Some Fun! program for children in grades 1–5, “Superhero School” at 2 p.m. in the Children’s Library activity room.

July 9 Truly Remarkable Loon comedy juggling at 2 p.m.

July 11 ArtCart *EXTRA*, 10 a.m.–noon, in Discovery Garden Park (At Library if rain). Free drop-in art in the park.

July 14 Superhero Art with Michael Hecht, ages 8–12 at 2 p.m. Sponsored by Skaalen House. Registration is required, please call 838-9030 ext. 0.

July 15 TeenCreate Workshop, 1:30–3 p.m. – Make amazing art prints with the brand-new Mobile Printing Press.

July 16 Dane County Humane Society educator and animal friends at 2 p.m.

July 21 Sixth and final Drop-In Preschool Story Time for ages 6 and younger, at 10:30 a.m.

July 22 Some Fun! program for grades 1–5, (topic to be announced) at 2 p.m. Registration is required, please call 838-9030 ext. 0.

July 23 Storyteller Karen Wendt presents “Tricksters, Travelers & Heroes” at 2 p.m.

July 25 Last day to register for SLP reading incentive folders.

July 28 Community Heroes: McFarland Police Department’s new K-9 Unit visits the library, 2 p.m. – officer Ryan Copeland and police dog Boris.

July 30 SLP Finale! 1:30-3:30 p.m., includes crafts, games, door prizes and featured performer “Pint Size Polkas” at 2:30 p.m. Free tickets in the lobby at 1 p.m.

Aug. 8 Last day to collect reading incentive prizes.

* * Senior News * *

May Is Older American's Month

"Get into the Act" is the theme of the 2015 Older American's Month in honor of the upcoming 50th anniversary of the Older Americans Act (OAA). May is designated for recognizing and celebrating older Americans and to pay tribute to for their contributions, their vision and sacrifices in order to improve the quality of life and freedoms for the next generations of Americans. Older adults are taking charge of their health, getting engaged in their communities, and making a positive impact in the lives of others.

The Senior Outreach Services Department provides services and programs for persons over the age of 60 and adults with disabilities. Areas of assistance by outreach staff include: finance, a meal program, transportation, a foot care clinic (toe nail clipping), housing options and home repair information, and referrals to other agencies. It also provides a loan closet for short term loans of medical equipment for a \$5 donation. Inquiries are always welcome at 838-7117.

The Outreach Department publishes a monthly newsletter with current activities and information. Free copies can be found at the Municipal Center, the library or at local businesses. Newsletters may also be mailed to a person's home.

Subscriptions to the monthly newsletter can be made by sending \$8 to the Senior Outreach Department at PO Box 110, McFarland, WI 53558. Please include subscriber's name and address. A free email version of the newsletter can be received by emailing outreach.dept@mcfarland.wi.us and requesting to be added to the group email list.

Senior Nutrition Program

McFarland offers a meal site and home delivered meals for people over age 60. Outreach encourages more seniors to use the site, located in the Community Room at the Municipal Center. The meal program is for every senior, no matter what the income. The meals are prepared by a caterer and brought to McFarland for consumption. It is a well-balanced meal. It is especially appealing for people who don't enjoy cooking, or who eat alone. Typically, seniors who live alone eat meals which tend to be those of convenience – cereal, soup, sandwiches, etc. – rather than balanced with fruits, vegetables, food rich in anti-oxidants, fiber, and omega-3. Socialization is also a benefit of the program. Research shows that people who are more connected socially are less depressed and have fewer health problems. Newcomers are welcome. Bring a neighbor or a friend along. The meal site is available at 11:45 a.m. Monday, Wednesday and Fridays. Home delivered meals can be received Monday through Fridays. Call Senior Outreach (838-7117) for more information.

Meal Delivery Driver Subs Wanted

The Senior Outreach Department is looking for responsible drivers to be on a substitute list to deliver home delivered meals to home bound seniors, as needed. Meals are delivered Monday through Fridays between the hours of 11:15 a.m. –12:30 p.m. Most delivery routes take 30 - 45 minutes to complete. Substitutes are usually called at least a day in advance. However, there are times when we need last minute drivers. Interested persons should call Senior Outreach at 838-7117 for additional information and to be placed on the list.

Senior Options for Socializing

ROMEO (Retired Older Men Eating Out) meets monthly at 8 a.m. for breakfast at the Green Lantern on the fourth Wednesday of the month. No reservations are needed.

JULIET (Just Us Ladies Iz Eatin' Together) Breakfast Club for retired ladies. Meets the fourth Tuesday of the month at 9 a.m. at the Green Lantern. No reservations are needed.

Bocce Season

Bocce leagues are now forming for the upcoming bocce season. The spring leagues play from May through June. The summer leagues play from July through August. Seniors have a Wednesday morning league coordinated by the Senior Outreach Department. Senior league information can be received from the Outreach Department at 838-7117. The evening leagues are organized through the Four Lakes Bocce Association. For more information about the evening leagues visit www.fourlakesbocce.org, call 443-7443, or email fourlakesbocce@gmail.com.
